

ISO/TR 18159:2015-08 (E)

Document management - Environmental and work place safety regulations affecting microfilm processors

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Terms and definitions	1
3	International standard industrial classification	4
4	Effluent pretreatment requirements	4
5	Stream standards	5
6	Disposal of photo processing effluents using septic tanks and leach fields	5
7	Trade effluents consents	5
8	Photographic processing effluent characteristics	6
8.1	General	6
8.2	Temperature	9
8.3	Oxygen demand	9
8.3.1	General	9
8.3.2	BOD5	9
8.3.3	COD	10
8.4	Suspended solids	10
8.5	Chlorine demand	10
8.6	pH	10
8.7	Heavy metals	10
8.7.1	General	10
8.7.2	Silver	11
8.7.3	Chromium compound	11
8.7.4	Iron complexes	11
8.7.5	Zinc	12
8.7.6	Cadmium	12
8.7.7	Other heavy metals	12
8.8	Phenols	12
8.9	Cyano complexes	12
8.10	Thiocyanate	13
8.11	Hydroquinone	13
8.12	Ammonium	13
8.13	Phosphates and nitrates	13
8.14	Detergents, oils, and tars	13
8.15	Colour and odour	13
8.16	Flammable and explosive materials	13
8.17	Volatile organic compounds (VOC)	14
9	Effluent sampling	14
9.1	General	14
9.2	Sampling techniques	15
9.2.1	General	15

9.2.2	Grab sampling	15
9.2.3	Composite sampling	16
9.2.4	Continuous sampling	16
10	Handling samples for analysis	16
11	Pollution prevention	16
11.1	General	16
11.2	Squeegees	17
11.2.1	General	17
11.2.2	Types of squeegees	17
11.3	Replenishment rates	17
11.4	Good housekeeping	18
12	Dilution (equalization)	18
12.1	General	18
12.2	Holding tank	18
13	Silver recovery	19
13.1	General	19
13.2	Regulatory compliance	19
13.3	Silver recovery techniques	20
14	Commercial disposal services	20
15	Current issues in environmental and work place safety regulations affecting microfilm processing laboratories	20
16	Hazardous waste resulting from photo processing	21
17	Container storage requirements and labelling	22
18	Emergency contingency plans and procedures	22
19	Land disposal criteria	23
20	Storm water regulations	23
21	Air pollution considerations	23
22	General guidelines for ventilating photographic processing areas	24
22.1	General	24
22.2	Ventilation guidelines	24
23	Regulation of photographic processing air emissions	26
Annex A (informative) Assistance from manufacturers		27
Annex B (informative) Sample written Hazard Communication Programme in the United States of America(Provided by U.S. Department of Labour/OSHA)		28
Annex C (informative) References, statutes, and regulations applicable to the United States of America		30
Annex D (informative) General guidelines for ventilating photographic processing areas		44
Annex E (informative) Environmental protection in France		46
Annex F (informative) Environmental protection in the United Kingdom		48
Bibliography		50
