## Document management - Environmental and work place safety regulations affecting microfilm processors

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Terms and definitions .....	1
3	International standard industrial classification .....	4
4	Effluent pretreatment requirements .....	4
5	Stream standards .....	5
6	Disposal of photo processing effluents using septic tanks and leach fields .....	5
7	Trade effluents consents .....	5
8	Photographic processing effluent characteristics .....	6
8.1	General .....	6
8.2	Temperature .....	9
8.3	Oxygen demand .....	9
8.3.1	General .....	9
8.3.2	BOD5 .....	9
8.3.3	COD .....	10
8.4	Suspended solids .....	10
8.5	Chlorine demand .....	10
8.6	pH .....	10
8.7	Heavy metals .....	10
8.7.1	General .....	10
8.7.2	Silver .....	11
8.7.3	Chromium compound .....	11
8.7.4	Iron complexes .....	11
8.7.5	Zinc .....	12
8.7.6	Cadmium .....	12
8.7.7	Other heavy metals .....	12
8.8	Phenols .....	12
8.9	Cyano complexes .....	12
8.10	Thiocyanate .....	13
8.11	Hydroquinone .....	13
8.12	Ammonium .....	13
8.13	Phosphates and nitrates .....	13
8.14	Detergents, oils, and tars .....	13
8.15	Colour and odour .....	13
8.16	Flammable and explosive materials .....	13
8.17	Volatile organic compounds (VOC) .....	14
9	Effluent sampling .....	14
9.1	General .....	14
9.2	Sampling techniques .....	15
9.2.1	General .....	15

9.2.2	Grab sampling .....	15
9.2.3	Composite sampling .....	16
9.2.4	Continuous sampling .....	16
10	Handling samples for analysis .....	16
11	Pollution prevention .....	16
11.1	General .....	16
11.2	Squeegees .....	17
11.2.1	General .....	17
11.2.2	Types of squeegees .....	17
11.3	Replenishment rates .....	17
11.4	Good housekeeping .....	18
12	Dilution (equalization) .....	18
12.1	General .....	18
12.2	Holding tank .....	18
13	Silver recovery .....	19
13.1	General .....	19
13.2	Regulatory compliance .....	19
13.3	Silver recovery techniques .....	20
14	Commercial disposal services .....	20
15	Current issues in environmental and work place safety regulations affecting microfilm processing laboratories .....	20
16	Hazardous waste resulting from photo processing .....	21
17	Container storage requirements and labelling .....	22
18	Emergency contingency plans and procedures .....	22
19	Land disposal criteria .....	23
20	Storm water regulations .....	23
21	Air pollution considerations .....	23
22	General guidelines for ventilating photographic processing areas .....	24
22.1	General .....	24
22.2	Ventilation guidelines .....	24
23	Regulation of photographic processing air emissions .....	26
Annex A (informative) Assistance from manufacturers .....		27
Annex B (informative) Sample written Hazard Communication Programme in the United States of America(Provided by U.S. Department of Labour/OSHA) .....		28
Annex C (informative) References, statutes, and regulations applicable to the United States of America .....		30
Annex D (informative) General guidelines for ventilating photographic processing areas .....		44
Annex E (informative) Environmental protection in France .....		46
Annex F (informative) Environmental protection in the United Kingdom .....		48
Bibliography .....		50
