Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Records management metadata 2

5 Perspectives and purpose of records management metadata 3
5.1 Purpose and benefits of records management metadata 3
5.2 Records management metadata that should be applied in an organization 4
5.2.1 General 4
5.2.2 Metadata at the point of record capture 4
5.2.3 Metadata after record capture 5

6 Roles and responsibilities 5

7 Records management metadata in relation to other metadata areas 6
7.1 General 6
7.2 Metadata for e-business 6
7.3 Metadata for preservation 6
7.4 Metadata for resource description 6
7.5 Metadata for resource discovery 7
7.6 Metadata for rights management 7
7.7 Metadata for sustainability across system boundaries 7

8 Management of metadata 7
8.1 General 7
8.2 Levels of application of metadata 7
8.3 Points throughout the existence of records when metadata should be created and applied 8
8.4 Processes of metadata management 8
8.4.1 General 8
8.4.2 Defining policies and methods 8
8.4.3 Creating and maintaining metadata 8
8.4.4 Creating and maintaining structures for managing metadata 8
8.4.5 Determining when and how metadata should be captured 9
8.4.6 Documenting and enforcing standard definitions 9
8.4.7 Access to metadata 9
8.4.8 Storing metadata 9
8.4.9 Description 9
8.4.10 Maintenance of metadata 10
8.5 Metadata structures 10
8.6 Role of systems 11

9 Types of metadata required to support ISO 15489-1 11
9.1 Introduction to metadata types 11

9.2 Metadata about records 12
9.2.1 Metadata about records at the point of record capture 12
9.2.2 Metadata about records after record capture 13
9.2.3 Metadata supporting the accessibility of records 13
9.2.4 Metadata supporting the security of records 14
9.3 Metadata about the business rules, policies and mandates 15
9.3.1 Metadata about business rules, policies and mandates at the point of record capture 15
9.3.2 Metadata about business rules, policies and mandates after record capture 16
9.4 Agent metadata 16
9.4.1 Agent metadata at point of record capture 16
9.4.2 Metadata about agents after record capture 17
9.5 Business process metadata 17
9.5.1 Business process metadata at point of record capture 17
9.5.2 Metadata about business processes after record capture 18
9.6 Metadata about records management processes 18
9.6.1 Metadata about records management processes at the point of record capture.18 9.6.2
Metadata about records management processes after record capture 19
