## Information and documentation - Document storage requirements for archive and library materials

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | v           |
| Introduction ..... |  | vi          |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....                                   | 1           |
| 3                  | Terms and definitions .....                                  | 1           |
| 4                  | Sustainability -- Collections storage and preservation ..... | 2           |
| 4.1                | General .....  | 2           |
| 4.2                | Specifying storage spaces/conditions .....                   | 3           |
| 5                  | Design planning .....  | 3           |
| 5.1                | Identify design participants .....                           | 3           |
| 5.2                | Establish design priorities .....                            | 4           |
| 5.3                | Establish design specifications .....                        | 4           |
| 5.4                | Risk assessment .....  | 5           |
| 5.4.1              | General .....  | 5           |
| 5.4.2              | Hazards to collections .....                                 | 5           |
| 5.4.3              | Site risk assessment .....                                   | 6           |
| 5.5                | Location of repository within structure .....                | 7           |
| 5.6                | Subgrade storage considerations .....                        | 7           |
| 6                  | Building materials and assembly .....                        | 8           |
| 6.1                | Building fabric and environmental protection .....           | 8           |
| 6.1.1              | General .....  | 8           |
| 6.1.2              | Insulation and thermal stability (Thermal) .....             | 8           |
| 6.1.3              | Airtightness .....   | 9           |
| 6.1.4              | Hygroscopicity/permeability (Vapor) .....                    | 9           |
| 6.1.5              | Air pressurization and repositories .....                    | 9           |
| 6.1.6              | Modelling .....  | 10          |
| 6.2                | Building materials and stability .....                       | 10          |
| 6.2.1              | General .....  | 10          |
| 6.2.2              | Foundations and ground-bearing slabs .....                   | 10          |
| 6.2.3              | Exterior .....   | 11          |
| 6.2.4              | Roof .....   | 11          |
| 6.2.5              | Interior -- General .....                                    | 12          |
| 6.2.6              | Interior finishes .....                                      | 12          |
| 6.2.7              | Off gassing of construction materials .....                  | 12          |
| 6.2.8              | Building equilibration .....                                 | 13          |
| 6.2.9              | Floors .....   | 13          |
| 6.3                | Mechanical/HVAC systems .....                                | 14          |
| 6.3.1              | General .....  | 14          |
| 6.3.2              | Equipment location .....                                     | 14          |
| 6.3.3              | Design considerations .....                                  | 14          |
| 6.4                | Security .....   | 17          |
| 6.4.1              | General .....  | 17          |
| 6.4.2              | Protection against intruders .....                           | 17          |
| 6.4.3              | Doors and circulation routes .....                           | 17          |

|       |  |    |
|-------|--|----|
| 6.4.4 | Services .....   | 18 |
| 6.4.5 | Windows .....  | 18 |
| 7     | Furniture and lighting considerations .....  | 18 |
| 7.1   | Furniture .....  | 18 |
| 7.1.1 | General .....  | 18 |
| 7.1.2 | Material requirements .....  | 18 |
| 7.1.3 | Furniture configuration in the repository ambient conditions .....   | 18 |
| 7.1.4 | Types of storage furniture .....   | 19 |
| 7.1.5 | Mobile shelving systems .....  | 20 |
| 7.2   | Lighting .....   | 20 |
| 7.2.1 | General .....  | 20 |
| 7.2.2 | Repository .....   | 21 |
| 7.2.3 | Artificial light sources .....   | 21 |
| 7.2.4 | Natural light sources .....  | 22 |
| 7.2.5 | Collection-level mitigation strategies for reducing light exposure in existing repositories .....                      | 22 |
| 8     | Environmental monitoring .....   | 23 |
| 8.1   | General .....  | 23 |
| 8.2   | Methodology .....  | 23 |
| 8.2.1 | General .....  | 23 |
| 8.2.2 | Equipment .....  | 23 |
| 8.2.3 | Deployment and sample rates .....  | 23 |
| 8.2.4 | Data retention and analysis .....  | 24 |
| 8.2.5 | Other data sources .....   | 24 |
| 9     | Building-related hazards to collections .....  | 25 |
| 9.1   | Pest considerations .....  | 25 |
| 9.2   | Water considerations .....   | 25 |
| 9.3   | Fire protection and prevention .....   | 25 |
| 9.3.1 | General .....  | 25 |
| 9.3.2 | Fire risk assessment .....   | 26 |
| 9.3.3 | Structural fire protection .....   | 26 |
| 9.3.4 | Minimizing fire hazard in an electrical system .....   | 27 |
| 9.3.5 | Minimizing fire hazards in ventilation plant and equipment .....   | 28 |
| 9.3.6 | Fire detection and firefighting .....  | 28 |
| 9.4   | Seismic .....  | 29 |
| 9.5   | Power/Emergency power .....  | 30 |
| 9.5.1 | General .....  | 30 |
| 9.5.2 | Emergency power .....  | 30 |
| 10    | Facility records and maintenance .....   | 30 |
| 10.1  | Facility records .....   | 30 |
| 10.2  | Maintenance .....  | 30 |
|       | Annex A (informative) Automatic fire-fighting systems .....  | 32 |
|       | Annex B (informative) Recommended climatic conditions for the long-term storage of archive and library materials ..... | 34 |
|       | Annex C (informative) Environmental transitions for materials .....  | 37 |
|       | Bibliography .....   | 38 |
