DIN ISO 11799:2026-10 (E)

Information and documentation - Document storage requirements for archive and library materials (ISO 11799:2024)

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Sustainability — Collections storage and preservation **2**
4.1 General 2
4.2 Specifying storage spaces/conditions 3

5 Design planning **3**
5.1 Identify design participants 3
5.2 Establish design priorities 4
5.3 Establish design specifications 4
5.4 Risk assessment 5
5.4.1 General 5
5.4.2 Hazards to collections 5
5.4.3 Site risk assessment 6
5.5 Location of repository within structure 7
5.6 Subgrade storage considerations 7

6 Building materials and assembly **8**
6.1 Building fabric and environmental protection 8
6.1.1 General 8
6.1.2 Insulation and thermal stability (Thermal) 8
6.1.3 Airtightness 9
6.1.4 Hygroscopicity/permeability (Vapor) 9
6.1.5 Air pressurization and repositories 9
6.1.6 Modelling 10
6.2 Building materials and stability 10
6.2.1 General 10
6.2.2 Foundations and ground-bearing slabs 10
6.2.3 Exterior 11
6.2.4 Roof 11
6.2.5 Interior — General 12
6.2.6 Interior finishes 12
6.2.7 Off gassing of construction materials 12
6.2.8 Building equilibration 13
6.2.9 Floors 13
6.3 Mechanical/HVAC systems 14
6.3.1 General 14
6.3.2 Equipment location 14
6.3.3 Design considerations 14
6.4 Security 17
6.4.1 General 17
6.4.2 Protection against intruders 17
6.4.3 Doors and circulation routes 17
6.4.4 Services 18
6.4.5 Windows 18

7 Furniture and lighting considerations **18**
7.1 Furniture 18

7.1.1 General 18
7.1.2 Material requirements 18
7.1.3 Furniture configuration in the repository ambient conditions 18
7.1.4 Types of storage furniture 19
7.1.5 Mobile shelving systems 20
7.2 Lighting 20
7.2.1 General 20
7.2.2 Repository 21
7.2.3 Artificial light sources 21
7.2.4 Natural light sources 22
7.2.5 Collection-level mitigation strategies for reducing light exposure in existing repositories 22

8 Environmental monitoring 23
8.1 General 23
8.2 Methodology 23
8.2.1 General 23
8.2.2 Equipment 23
8.2.3 Deployment and sample rates 23
8.2.4 Data retention and analysis 24
8.2.5 Other data sources 24

9 Building-related hazards to collections 25
9.1 Pest considerations 25
9.2 Water considerations 25
9.3 Fire protection and prevention 26
9.3.1 General 26
9.3.2 Fire risk assessment 26
9.3.3 Structural fire protection 26
9.3.4 Minimizing fire hazard in an electrical system 27
9.3.5 Minimizing fire hazards in ventilation plant and equipment 28
9.3.6 Fire detection and firefighting 28
9.4 Seismic 29
9.5 Power/Emergency power 30
9.5.1 General 30
9.5.2 Emergency power 30

10 Facility records and maintenance 30
10.1 Facility records 30
10.2 Maintenance 30

Annex A (informative) **Automatic fire-fighting systems 32**

Annex B (informative) **Recommended climatic conditions for the long-term storage of archive and library materials 34**

Annex C (informative) **Environmental transitions for materials 37**

Bibliography 38
