DIN EN 13524:2014-07 (E)

Highway maintenance machines - Safety requirements (includes Amendment A2:2014)

Contents

Page

Foreword 4

0 Introduction 5

1 Scope 5

2 Normative references 6

3 Terms and definitions 7

4 List of significant hazards 8

5 Safety requirements and/or measures 9
5.1 !General" 9
5.2 Combination of carrier vehicle and machine for highway maintenance 9
5.3 Controls 10
5.4 Access and walkways 10
5.5 Precautions against hazards caused by moving parts 10
5.6 Hot surfaces 10
5.7 Attachment fittings 11
5.8 Safety mechanisms for changing machines 11
5.9 Lifting devices 11
5.10 Transportation 12
5.10.1 #General$ 12
5.10.2 General requirements 12
5.10.3 Location of attachment point(s) 12
5.10.4 Identification of lifting attachment points 12
5.11 Support equipment for machines and components 12
5.12 Disconnectable power and signal-transmitting systems 13
5.13 Requirements for fluid power systems 13
5.13.1 Hydraulic systems 13
5.13.2 Pneumatic systems 13
5.14 Special protection against parts being ejected 13
5.15 Controls for machines using revolving/oscillating tools 13
5.16 Protective covering of moving parts 13
5.17 Special protection measures to prevent unintentional contact with revolving tools in the operating area of mowing and mulching machines 13
5.18 Noise reduction by design 16
5.18.1 Noise reduction at source 16
5.18.2 Noise reduction by protective measures 17
5.18.3 Noise reduction by information 17
5.19 Reduction of vibration 17

6 Information for use 17
6.1 !General" 17
6.2 Operator's manual 17
6.3 Spare parts list 18

7 Marking 19

8 Verification 19

Annex A (informative) Attachment plate for a truck 20

Annex B (normative) #Stipulations on the design and testing of mowing and mulching machines$. 21

Annex C (informative) #Thrown-object test reports - Machines 45

Annex ZA (informative) !Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC" 51

Bibliography 52
