

DIN EN 15429-3:2015-05 (E)

Sweepers - Part 3: Efficiency of particulate matter collection - Testing and Evaluation

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Test method features	6
5	Technical requirements	7
5.1	Test facility	7
5.2	Test course	8
5.3	Test surface	8
5.4	Kerb	8
5.5	Test material	9
5.6	Test material application	9
5.7	Test material application area	10
5.8	Test material application density	10
5.9	Aerosol dust monitors	10
5.10	Test surface cleaning equipment	11
5.11	Test sweeper	11
5.12	Dust suppression water	11
5.13	Test sweeper speed	12
5.14	Test sweeper conditioning	12
5.15	Test surface and equipment conditioning	12
5.16	Ambient weather conditions	13
5.17	Reference time	13
6	Test method procedures	14
6.1	Test preparation procedures	14
6.2	Procedures prior to test run	14
6.3	Test run procedures	15
6.4	Procedures after test run	16
7	Test run data analysis and calculations	17
7.1	General	17
7.2	Removal efficiency	17
7.3	PM emission rating	18
7.4	Final sweeper test performance results	19
8	Test result reporting	19
Annex A (normative)	Test facility	20
Annex B (normative)	Test course layout	21
Annex C (normative)	Test material data sheet	22
Annex D (normative)	Test run events log sheet	23
