

# DIN EN 17067:2019-03 (E)

## Forestry machinery - Safety requirements on radio remote controls

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
Introduction .....		5
1	Scope .....	6
2	Normative references .....	7
3	Terms and definitions .....	8
4	Requirements for cableless control systems (CCS) .....	13
4.1	General .....	13
4.2	Minimum control functions .....	13
4.3	General Safe STOP (GSS) .....	13
4.4	Control elements .....	14
4.4.1	General requirements .....	14
4.4.2	Unintended activation .....	14
4.4.3	Latching control functions .....	14
4.4.4	Minimum requirements .....	14
4.5	Design principles for forestry cableless control systems .....	14
4.5.1	Protection against unintended activation .....	14
4.5.2	Ergonomics .....	15
4.6	Marking .....	15
4.7	Requirements for controls with dual or multiple functions .....	19
4.7.1	Dual function with hold-to-run control (shift button) .....	19
4.7.2	Multiple control functions with mode selector .....	19
4.8	Multiple operator control units .....	19
4.9	Multiple base stations .....	20
4.10	Response times .....	20
4.10.1	Start and stop of movement functions .....	20
4.10.2	Fault tolerating times .....	20
4.11	Safety functions .....	20
4.11.1	Minimum requirements for the performance level .....	20
4.11.2	Safety objectives .....	20
4.11.3	Monitoring and safety of the wireless connection .....	21
4.12	Prevention of unintentional start of a function that would lead to a hazardous movement .....	21
4.13	Environment requirements .....	21
4.13.1	Temperature range according to EN 60068-2-14 and EN 60068-2-1 .....	21
4.13.2	Mechanical strength according to EN 60068-2-31 .....	21
4.13.3	IP protection class according to EN 60529 .....	21
4.13.4	Requirements for the electromagnetic compatibility (EMC) .....	21
4.14	Self-tests .....	22
4.15	Warning devices .....	22
4.16	Control outputs .....	22
4.17	Marking .....	22
4.17.1	General .....	22
4.17.2	Information on the remote station .....	23
4.17.3	Information on the base station .....	23
4.18	Instruction handbook .....	24
DIN EN 17067:2019-03 EN 17067:2018 (E) 4.18.1 General .....		24
4.18.2	Winches .....	26

4.18.3	Mobile yarders .....	26
4.18.4	Additional instructions for CCS integration in a wood chipper .....	26
5	Requirements for cableless control systems for logging winches - minimum scope of functions .....	26
6	Requirements for cable-less control systems for travelling functions .....	27
7	Requirements for cableless control systems for mobile yarders .....	29
7.1	General .....	29
7.2	Multiple operator control units .....	29
7.3	Transfer/Adopt function .....	29
7.4	Stop function .....	30
7.4.1	General .....	30
7.4.2	Passive stop - additional requirements .....	30
7.5	Marking .....	30
8	Requirements for cableless control systems for wood chippers .....	32
Annex A (normative) Examples of permissible radio ranges of CCS for mobile yarders .....		35
A.1	Action ranges with long distance in automatic mode .....	35
A.2	Carriage controlled by the tower yarder .....	36
A.2.1	Without remote stations .....	36
A.2.2	With remote commands reaching the tower yarder .....	37
A.2.3	Remote commands reaching the tower yarder via external repeater .....	38
A.3	Carriage controlled by CCS .....	38
A.3.1	Remote commands reaching the tower yarder via a transceiver installed on the carriage .....	38
A.3.2	Remote commanded active self-propelled carriage .....	39
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC amended by Directive 2009/127/EC aimed to be covered .....		40
Bibliography .....		42
