European foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Objective of the Office-Mobile interface 9

5 Interfaces 9
5.1 Classification of the interface 9
5.2 Interface -- Exchange of information in files 10
5.3 Basic structure 11
5.3.1 General 11
5.3.2 MasterData, OrderPlan, OrderReport, StatusReport 11
5.4 Data transmission 11

6 Disposal XML schema 11
6.1 Specifications for creating the schema 11
6.1.1 Example for naming job designations 11
6.1.2 Tour, Job, Service 12

7 Variables and structure of the schema 12
7.1 Format 12
7.2 Object-based layout of the elements 12
7.3 Attributes of elements 13
7.4 Naming conventions 14
7.5 Elements XXXNumber when generating on the mobile technology 14
7.6 EventLog 14
7.7 Handling of Tour, Job, Service 15
7.7.1 Planned jobs 15
7.7.2 Unplanned jobs 15
7.8 Basic structures 16
7.8.1 MasterData 16
7.8.2 OrderPlan 18
7.8.3 OrderReport 19
7.8.4 StatusReport 21
7.9 Enumeration types 23
7.9.1 ActivityBaseType 23
7.9.2 ContentType 23
7.9.3 DataSetStatusType 24
7.9.4 DataSourceType 24
7.9.5 DrivingDirectionType 25
7.9.6 GeoPositionValidityAndQualityType 25
7.9.7 LifterType 25
7.9.8 Material HandOverActionType 26
7.9.9 StatusMessageType 26
7.9.10 StaffActivityStatusType 28
7.9.11 SystemMessageType 28
7.9.12 VehicleBaseType 28

7.9.13 WeighingStatusType 29
7.10 Physical variables 29
7.10.1 General 29
7.10.2 MassType 29
7.10.3 LatitudeType and LongitudeType 30
7.11 ComplexTypes 30
7.11.1 ActivityType 30
7.11.2 AddressType 30
7.11.3 BusinessPartnerType 30
7.11.4 CarrierType 30
7.11.5 CompanyType 30
7.11.6 RFIDType 31
7.11.7 ContainerIdentificationType 31
7.11.8 MessageType 31
7.11.9 OrderPlanHeaderType 34
7.11.10 OrderReportHeaderType 34
7.11.11 BinListType 35
7.11.12 TourType 37
7.11.13 TourAcknowledgementType 38
7.11.14 JobBaseType 39
7.11.15 JobType 40
7.11.16 JobAcknowledgementType 40
7.11.17 ServiceType 40
7.11.18 ServiceAcknowledgementType 41
7.12 EventType 42
7.12.1 General 42
7.12.2 UserEventType 42
7.12.3 EmptyingEventType 43
7.12.4 IdentificationEventType 43
7.12.5 WeighingEventType and VolumeEventType 44
7.12.6 GenericValueEventType 44

8 Scenarios and examples 44
8.1 Use of StatusReport 44
8.2 Household-related collection 45
8.2.1 General 45
8.2.2 No preparation/tracking/recording of performance data 45
8.2.3 Vehicle position 45
8.2.4 Black and white lists of transponders during household-related collection 46
8.2.5 Planned tour without sites, vehicle-related framework specifications 46
8.2.6 Planned route with tour, sites and containers 47
8.3 Commercial waste disposal with job management 47

9 Transfer of data services 48
