| Foreword .....                                                                                                                                                     | 3           |
| 0 Introduction .....                                                                                                                                               | 4           |
| 1 Scope .....                                                                                                                                                      | 5           |
| 2 Normative references .....                                                                                                                                       | 6           |
| 3 Terms and definitions .....                                                                                                                                      | 7           |
| 4 Safety requirements and/or measures .....                                                                                                                        | 9           |
| 4.1 General .....                                                                                                                                                  | 9           |
| 4.2 Operator controls .....                                                                                                                                        | 9           |
| 4.2.1 General .....                                                                                                                                                | 9           |
| 4.2.2 Starting the machine .....                                                                                                                                   | 9           |
| 4.2.3 Stopping the machine .....                                                                                                                                   | 10          |
| 4.2.4 Infeed stop control .....                                                                                                                                    | 10          |
| 4.2.5 Safety and reliability of control systems .....                                                                                                              | 14          |
| 4.3 Protection against mechanical hazards .....                                                                                                                    | 15          |
| 4.3.1 Stability .....                                                                                                                                              | 15          |
| 4.3.2 Risk of break-up during operation .....                                                                                                                      | 15          |
| 4.3.3 Hazards related to infeed components and chipping components .....                                                                                           | 16          |
| 4.3.4 Risks due to ejected objects .....                                                                                                                           | 18          |
| 4.3.5 Protection against access to moving power transmission parts .....                                                                                           | 18          |
| 4.4 Protection against non-mechanical hazards .....                                                                                                                | 19          |
| 4.4.1 Noise .....                                                                                                                                                  | 19          |
| 4.4.2 Hydraulic components .....                                                                                                                                   | 20          |
| 4.4.3 Hot surfaces .....                                                                                                                                           | 20          |
| 4.4.4 Electrical hazards .....                                                                                                                                     | 20          |
| 4.5 Preparation for transport and maintenance .....                                                                                                                | 21          |
| 5 Verification of the safety requirements and/or measures .....                                                                                                    | 22          |
| 5.1 General .....                                                                                                                                                  | 22          |
| 5.2 Stability .....                                                                                                                                                | 22          |
| 5.3 Chipping components risk of break-up .....                                                                                                                     | 23          |
| 5.4 Hot surfaces .....                                                                                                                                             | 23          |
| 5.4.1 Temperature measuring equipment .....                                                                                                                        | 23          |
| 5.4.2 Test method .....                                                                                                                                            | 23          |
| 5.4.3 Test acceptance .....                                                                                                                                        | 24          |
| 5.5 Verification of requirements on noise - Measurement of noise emission .....                                                                                    | 24          |
| 6 Information for use .....                                                                                                                                        | 24          |
| 6.1 Instruction handbook .....                                                                                                                                     | 24          |
| 6.2 Marking .....                                                                                                                                                  | 26          |
| 6.3 Warnings .....                                                                                                                                                 | 26          |
| Annex A (normative) List of significant hazards .....                                                                                                              | 28          |
| Annex B (normative) Noise test code - Engineering method (grade 2) .....                                                                                           | 32          |
| Annex C (normative) !!!!Machines with integrated feed chain conveyor .....                                                                                         | 35          |
| Annex ZA (informative) Relationship between this European Standard and the Essential<br>Requirements of EU Directive 98/37/EC, amended by Directive 98/79/EC ..... | 38          |
| Bibliography .....                                                                                                                                                 | 39          |
