E DIN EN 9300-300:2026-05 (E)

Erscheinungsdatum: 2026-04-17

Aerospace series - LOTAR - LOng Term Archiving and Retrieval of digital technical product documentation such as 3D, CAD and PDM data - Part 300: Common concepts for Long term archiving and retrieval of Composite Structure; English version prEN 9300-300:2026

Contents

Page

European foreword 4

Introduction 5
1.1 In scope 5
1.2 Out of scope 6

2 Normative references 7

3 Terms and definitions 7

4 Abbreviations 25

5 Applicability 25

6 Business specification scenarios for long term archiving 26
6.1 Introduction 26
6.2 Dependency of CAD essential information use cases 27
6.3 Description of use cases for retrieval of 3D Composite design 27

7 Fundamentals, concepts, and essential information for Long Term Archiving of Composite Structure 28
7.1 General 28
7.2 Essential information for definition composite part 28
7.2.1 General 28
7.2.2 Essential information for flat patterns 29
7.3 Essential information required for stiffened laminate dataset 30
7.4 Essential information required for core stiffened (sandwich) structure dataset 30
7.5 Essential information required for core detail dataset 30
7.6 Essential information required for composite LLAI 31
7.6.1 General 31
7.6.2 Information for overlap splice LLAI 31
7.6.3 Essential information for butt splice LLAI 31
7.6.4 Essential information for no splice LLAI 31
7.6.5 Essential information for fibre orientation angle tolerance LLAI 32
7.6.6 Essential information for porosity allowance LLAI 32
7.6.7 Essential information for ply drop-off stay out LLAI 32
7.6.8 Essential information for surface preparation LLAI 32
7.6.9 Essential information for potting LLAI 33
7.6.10 Essential information for darting LLAI 33
7.6.11 Essential information for perforation LLAI 33
7.6.12 Essential information for ply wrinkle allowance LLAI 34
7.6.13 Essential information for stitching LLAI 34
7.6.14 Essential information for edge sealing LLAI 35
7.6.15 Essential information for core sample LLAI 35
7.6.16 Essential information for user defined LLAI 35
7.6.17 36
7.6.18 Essential information for Edge of Part LLAI 36
7.6.19 Essential information for placement strategy LLAI 36
7.7 Reference dataset elements 37

8 Information Model for Long Term Archiving 37
Annex A (informative) Advanced Composite Structure Use Case Discussion 38
