

ISO 22072:2011-08 (E)

Aerospace - Electrohydrostatic actuator (EHA) - Characteristics to be defined in procurement specifications

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Requirements	3
4.1	General	3
4.2	Brief description of the system	3
4.3	Description and interfaces	3
4.4	Performance	4
4.5	Electrical power consumption and regeneration	6
4.6	Hydraulic consumption	7
4.7	Strength and life	7
4.8	Protection against fire risk	7
4.9	Reliability and safety	8
4.10	Bonding	8
4.11	Lightning, electromagnetic compatibility	8
4.12	Maintainability and servicing	8
4.13	Thermal requirements	9
5	Installation and operating conditions	9
5.1	General	9
5.2	Mechanical data	9
5.3	Electrical supply data	9
5.4	Thermal data	9
5.5	Hydraulic data	10
5.6	Control and monitoring data	10
5.7	Environmental data	10
5.8	Duty cycle data	10
