## Space systems - Prevention of break-up of unmanned spacecraft

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Implementation .....	2
4.1	Design process .....	2
4.2	Verification .....	2
4.3	Prevention of break-ups until end of life .....	3
4.4	Prevention of break-up after end of life .....	3
5	Stored energy sources .....	3
5.1	Systems storing energy .....	3
5.2	Electrical systems .....	4
5.3	Propulsion systems .....	4
5.4	Pressurized systems .....	5
5.5	Other energy sources .....	5
Annex A (informative) Procedure for estimating break-up probability .....		6
Bibliography .....		9
