## Aircraft ground equipment - De-icers - Functional requirements

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Requirements .....	2
4.1	General .....	2
4.2	Functions .....	3
4.3	Vehicle .....	4
4.4	Aerial device .....	5
4.5	Fluids system .....	6
4.6	Controls .....	6
4.7	Mobility and stability .....	7
4.8	Personnel protection .....	8
4.9	Emergency .....	8
5	Information for use .....	9
5.1	Manufacturer's instructions .....	9
5.2	Markings .....	9
6	Options .....	9
6.1	General .....	9
6.2	Fluid heater .....	9
6.3	Fluid mixing system .....	10
6.4	Spraying boom .....	10
6.5	Fire extinguishing system .....	10
6.6	One person operation .....	10
7	Quality assurance .....	10
7.1	Manufacturer's quality assurance .....	10
7.2	User's quality assurance .....	11
Annex A (informative) Toxicological aspects of using de-icing/anti-icing equipment .....		12
Annex B (informative) Environmental aspect of de-icing/anti-icing at airports .....		16
Bibliography .....		21
