DIN EN 16603-32-02:2014-10 (E)

Space engineering - Structural design and verification of pressurized hardware; English version EN 16603-32-02:2014

Table of contents

Foreword 5

1 Scope 6

2 Normative references 7

3 Terms, definitions, and abbreviated terms 8

3.1 Terms from other standards 8

3.2 Terms specific to the present standard 8

3.3 Abbreviated terms 14

3.4 Symbols 15

4 General requirements 16

4.1 Overview 16

4.1.1 Content 16

4.1.2 Categories of pressurized hardware 16

4.2 General 17

4.2.1 Leak tightness 17

4.2.2 Classification of fracture critical parts 17

4.2.3 Operation and maintenance 18

4.2.4 Service life extension, reactivation and re-acceptance 20

4.3 Pressure vessels 21

4.3.1 Factors of safety 21

4.3.2 Metallic pressure vessels 22

4.3.3 COPV with metallic liner 25

4.3.4 COPV with homogeneous non metallic liner and CPV 29

4.4 Pressurized structures 33

4.4.1 Factors of safety 33

4.4.2 Metallic pressurized structures 34

4.4.3 COPS with metallic liner 36

4.4.4 COPS with homogeneous non metallic liner and CPS 39

4.5 Pressure components 43

4.5.1 Metallic pressure components 43

4.5.2 COPC with metallic liner 45
4.5.3 COPC with homogeneous non metallic liner 48
4.6 Special pressurized equipment 51
4.6.1 Metallic special pressurized equipment 51
4.6.2 COSPE with metallic liner 58
4.6.3 COSPE with homogeneous non metallic liner 61
5 Specific requirements 65
5.1 Overview 65
5.2 Structural engineering 65
5.3 Failure mode demonstration 66
5.3.1 General 66
5.3.2 Demonstration of LBB by analysis 67
5.3.3 Demonstration of LBB by test using coupons 68
5.3.4 Demonstration of LBB by test using full-scale article 68
5.3.5 Report of LBB demonstration 69
5.4 Qualification tests 70
5.4.1 General 70
5.4.2 Proof pressure test 70
5.4.3 Leak test 71
5.4.4 Vibration test 71
5.4.5 Pressure cycling test 71
5.4.6 Design burst pressure test 71
5.4.7 Burst test 71
5.5 Acceptance tests 72
5.5.1 General 72
5.5.2 Proof pressure test 72
5.5.3 Leak test 72
5.6 Composite over-wrap material characterization 73
5.7 Inspection 73
5.7.1 General 73
5.7.2 Inspection techniques for composite over-wraps and composites 74
Bibliography 75
