

# DIN EN 16603-31:2014-12 (E)

Space engineering - Thermal control general requirements; English version EN 16603-31:2014

---

| Contents  | Page      |
|---|-----------|
| <b>Foreword</b> .....                                   | <b>5</b>  |
| <b>1 Scope</b> .....                                    | <b>6</b>  |
| <b>2 Normative references</b> .....                     | <b>7</b>  |
| <b>3 Terms, definitions and abbreviated terms</b> ..... | <b>8</b>  |
| 3.1 Terms from other standards.....                     | 8         |
| 3.2 Terms specific to the present standard .....        | 8         |
| 3.3 Abbreviated terms.....                              | 19        |
| <b>4 Requirements</b> .....                             | <b>21</b> |
| 4.1 Mission .....                                       | 21        |
| 4.1.1 General .....                                     | 21        |
| 4.1.2 Ground and pre-launch .....                       | 21        |
| 4.1.3 Launch and ascent.....                            | 21        |
| 4.1.4 Planetary orbital phases.....                     | 22        |
| 4.1.5 Interplanetary phases.....                        | 22        |
| 4.1.6 Planetary natural environment .....               | 22        |
| 4.1.7 Docking, docked and separation phases .....       | 22        |
| 4.1.8 Descent, entry and landing.....                   | 23        |
| 4.1.9 Post-landing phases.....                          | 23        |
| 4.2 Performance .....                                   | 23        |
| 4.2.1 General .....                                     | 23        |
| 4.2.2 High temperature range .....                      | 24        |
| 4.2.3 Cryogenic temperature range.....                  | 24        |
| 4.2.4 Functionality.....                                | 25        |
| 4.3 Requirements towards other subsystems .....         | 25        |
| 4.3.1 General .....                                     | 25        |
| 4.3.2 Mechanical.....                                   | 25        |
| 4.3.3 Electrical .....                                  | 26        |
| 4.3.4 AOCS.....   | 26        |
| 4.3.5 TM/TC.....  | 27        |

|        |   |    |
|--------|---|----|
| 4.3.6  | OBDH and S/W .....                              | 27 |
| 4.3.7  | Launcher .....                                  | 27 |
| 4.3.8  | GSE .....                                       | 28 |
| 4.3.9  | ECLS .....                                      | 28 |
| 4.4    | Design .....                                    | 28 |
| 4.4.1  | General .....                                   | 28 |
| 4.4.2  | Budget allocation .....                         | 29 |
| 4.4.3  | Parts, materials and processes (PMP) .....      | 29 |
| 4.4.4  | EEE components .....                            | 29 |
| 4.4.5  | Lifetime .....                                  | 29 |
| 4.4.6  | Predictability and testability .....            | 29 |
| 4.4.7  | Flexibility .....                               | 29 |
| 4.4.8  | Integration and accessibility .....             | 29 |
| 4.4.9  | Reliability .....                               | 30 |
| 4.4.10 | Interchangeability .....                        | 30 |
| 4.4.11 | Maintenance .....                               | 30 |
| 4.4.12 | Safety .....                                    | 30 |
| 4.4.13 | Availability .....                              | 30 |
| 4.5    | Verification .....                              | 30 |
| 4.5.1  | Overview .....                                  | 30 |
| 4.5.2  | Verification requirements specific to TCS ..... | 30 |
| 4.5.3  | Thermal balance test (TBT) .....                | 32 |
| 4.6    | Production and manufacturing .....              | 34 |
| 4.6.1  | Procurement .....                               | 34 |
| 4.6.2  | Manufacturing process .....                     | 35 |
| 4.6.3  | Quality management .....                        | 35 |
| 4.6.4  | Cleanliness and Contamination .....             | 35 |
| 4.6.5  | Integration .....                               | 36 |
| 4.6.6  | Identification and Marking .....                | 36 |
| 4.6.7  | Packaging, handling, transportation .....       | 36 |
| 4.6.8  | Storage .....                                   | 36 |
| 4.6.9  | Repair .....                                    | 36 |
| 4.7    | In-service requirements .....                   | 36 |
| 4.8    | Product assurance .....                         | 37 |
| 4.9    | Deliverables .....                              | 37 |
| 4.9.1  | General .....                                   | 37 |
| 4.9.2  | Hardware .....                                  | 37 |

|          |   |           |
|----------|---|-----------|
| 4.9.3    | Documentation.....  | 37        |
| 4.9.4    | Mathematical models .....                                 | 39        |
| <b>5</b> | <b>Document requirements definitions (DRD) list .....</b> | <b>40</b> |
|          | <b>Bibliography.....</b>                                  | <b>64</b> |

## Figures

|  |    |
|--|----|
| Figure 3-1: Temperature definitions for thermal control system (TCS).....                      | 9  |
| Figure 3-2: Temperature definitions for unit thermal design.....                               | 16 |
| Figure 4-1: Product exchange between the system, TCS and the supplier or<br>manufacturer ..... | 38 |

## Tables

|   |    |
|---|----|
| Table 5-1: ECSS-E-ST-31 DRD list .....  | 41 |
| Table G-1 : Definitions and requirements for the cryogenic temperature range used in<br>this Standard ..... | 62 |
| Table H-1 : Definitions and requirements for the high temperature range used in this<br>Standard .....      | 63 |
