European Foreword ... 8

Introduction ... 9

1 Scope ... 10

2 Normative references ... 11

3 Terms, definitions and abbreviated terms ... 14

3.1 Terms from other standards ... 14

3.2 Terms specific to the present standard ... 14

3.3 Abbreviated terms and symbols ... 16

3.4 Nomenclature ... 17

3.4.1 Formal verbs ... 17

3.4.2 Conventions ... 18

4 Principles ... 19

5 Generic requirements ... 20

5.1 General ... 20

5.2 Discontinuities and cracks ... 22

5.3 NDT drawing callouts ... 22

5.4 NDT process and configuration control ... 22

5.5 NDT procedure capability demonstration ... 23

5.6 Organizational guidelines and documentation requirement ... 24

5.7 NDT personnel qualification and certification ... 24

6 NDT methods ... 25

6.1 Visual testing ... 25

6.1.1 Overview ... 25

6.1.1.1 General process for visual testing ... 25

6.1.1.2 Visual testing process variations ... 25

6.1.2 General visual testing requirements ... 25

6.1.3 Visual testing equipment ... 26

6.1.3.1 Overview ... 26

6.1.3.2 Requirements for visual testing equipment ... 26

6.1.4 Visual testing application ... 26

6.1.5 Visual testing documentation 27
6.1.6 Visual testing process control 27
6.1.7 Visual testing process limitations and peculiarities 27
6.2 Leak testing 28
6.2.1 Overview 28
6.2.1.1 General process for leak testing 28
6.2.1.2 Leak testing process variations 28
6.2.2 General leak test requirements 29
6.2.3 Process application 29
6.2.3.1 Leak test procedure 29
6.2.3.2 Leak test documentation 30
6.3 Penetrant testing 30
6.3.1 Overview 30
6.3.1.1 General process for penetrant testing 30
6.3.1.2 Penetrant testing process variations 30
6.3.2 General penetrant testing requirements 31
6.3.3 Penetrant testing equipment 32
6.3.3.1 Overview 32
6.3.3.2 Requirements for penetrant testing equipment 32
6.3.4 Penetrant testing process application 32
6.3.5 Penetrant testing documentation 34
6.3.6 Penetrant testing process control 34
6.3.7 Penetrant testing process limitations and peculiarities 34
6.3.7.1 Overview 34
6.3.7.2 Etching requirements 35
6.3.8 Standard penetrant fracture control NDT 35
6.3.8.1 Overview 35
6.3.8.2 Standard fracture control NDT requirements 36
6.4 Eddy-current testing 36
6.4.1 Overview 36
6.4.1.1 General process for eddy-current testing 36
6.4.1.2 Eddy-current process limitations and peculiarities 37
6.4.2 Eddy-current testing general requirements 37
6.4.3 Eddy current testing process variations 38
6.4.4 Eddy current equipment 38
6.4.4.1 General 38
6.4.4.2 Instruments for the eddy-current testing 38
6.4.4.3 Probes for the eddy-current testing 38
6.4.4.4 Test-setup for the eddy current testing 38
6.4.5 Eddy-current testing process application 39
6.4.6 Eddy current testing documentation 39
6.4.7 Eddy current testing process control 39
6.4.7.1 Overview 39
6.4.7.2 Reference material blocks for the eddy-current testing 39
6.4.8 Standard eddy-current fracture control NDT 40

6.4.8.1 Overview ... 40
6.4.8.2 Standard eddy current testing requirements ... 40
6.5 Magnetic particle testing ... 41
6.5.1 Overview ... 41
6.5.1.1 General magnetic particle testing process ... 41
6.5.1.2 Magnetic particle testing process variations ... 41
6.5.2 General magnetic particle testing requirements ... 42
6.5.3 Magnetic particle testing equipment ... 42
6.5.3.1 General ... 42
6.5.3.2 Dry particles ... 42
6.5.3.3 Wet particles ... 42
6.5.3.4 Fluorescent particles ... 43
6.5.4 Magnetic particle testing process application ... 43
6.5.5 MT documentation ... 44
6.5.6 MT process control ... 44
6.5.7 MT process limitations and peculiarities ... 44
6.5.8 Standard magnetic particle fracture control NDT ... 44
6.5.8.1 Overview ... 44
6.5.8.2 Standard magnetic particle NDT requirements ... 45
6.6 X-ray radiographic testing ... 45
6.6.1 Overview ... 45
6.6.1.1 General process ... 45
6.6.1.2 X-ray radiographic testing process variations ... 45
6.6.2 General X-ray radiographic testing requirements ... 46
6.6.3 X-ray radiographic equipment ... 46
6.6.4 X-ray radiographic testing process application ... 46
6.6.5 X-ray radiographic testing documentation ... 47
6.6.6 X-ray radiographic testing process control ... 47
6.6.7 Standard X-ray radiographic fracture control NDT ... 47
6.6.7.1 Overview ... 47
6.6.7.2 X-ray radiographic testing requirements ... 47
6.7 Ultrasonic testing ... 48
6.7.1 Overview ... 48
6.7.1.1 General process for ultrasonic testing ... 48
6.7.1.2 Ultrasonic testing process variations ... 48
6.7.2 General ... 52
6.7.3 Ultrasonic testing equipment ... 52
6.7.3.1 General requirements ... 52
6.7.3.2 Couplants ... 52
6.7.3.3 Search units ... 53
6.7.4 Ultrasonic testing process application ... 53
6.7.4.1 General ... 53
6.7.4.2 Scanning ... 53
6.7.4.3 Scanning index ... 53
6.7.4.4 Qualification ... 54
6.7.4.5 Ultrasonic test documentation ... 54

6.7.5 Ultrasonic testing process control 54
6.7.5.1 Ultrasonic testing calibration sensitivity and limitations 54
6.7.5.2 Ultrasonic thickness gauge 55
6.7.5.3 Digital ultrasonic thickness gauge 55
6.7.5.4 Reference blocks 55
6.7.6 Ultrasonic testing process limitations and peculiarities 56
6.7.6.1 Overview 56
6.7.7 Standard ultrasonic fracture control NDT 57
6.7.7.1 Overview 57
6.7.7.2 Standard ultrasonic testing requirements 57
6.8 Proof testing 58
6.8.1 Overview 58
6.8.2 Proof testing requirements 58
7 Non-destructive testing of welds 59
8 Non-destructive testing of products 60
8.1 Overview 60
8.2 General 60
8.3 Wrought products 61
8.3.1 Overview 61
8.3.2 Raw material testing 61
8.3.3 Common wrought discontinuities 62
8.4 Forgings 62
8.4.1 Overview 62
8.4.2 Raw material testing 62
8.4.3 Common forging discontinuities 63
8.5 Castings 63
8.5.1 Overview 63
8.5.2 Raw material testing 63
8.5.2.1 General 63
8.5.2.2 Penetrant testing of castings 63
8.5.2.3 Ultrasonic testing of castings 64
8.5.2.4 X-ray radiographic testing of castings 64
8.5.2.5 X-Ray computed tomographic (CT) of castings 64
8.5.2.6 Common casting discontinuities 64
8.6 Laminated composite materials 65
8.6.1 Overview 65
8.6.2 Raw material testing 65
8.6.2.1 Overview 65
8.6.2.2 Testing of intermediate products 66
8.6.3 Inspection techniques for composites 66
8.6.3.1 General 66
8.6.3.2 X-Ray Radiographic testing of composites 66
8.6.3.3 X-ray Computed Tomographic (CT) Inspection of Composites 66
8.6.3.4 Guided In-Plane Wave Inspection of Composites 67

8.6.3.5 Ultrasonic C-Scan and Phased Array (PAUT) of Composites 67
8.6.3.6 Common discontinuities of Composites 67
8.6.4 NDT for joining dissimilar materials 68
8.6.4.1 Overview 68
8.6.4.2 Steps for specifying NDT for difficult features 68
8.6.4.3 NDT Coupled with Destructive Testing as Quality Control 69

9 Non-destructive testing of PFCI 70

9.1 General 70
9.1.1 Overview 70
9.1.2 General requirements 71
9.1.3 Capability demonstration 72
9.1.4 Testing of raw material 72
9.1.5 Testing of safe life finished parts 73
9.2 Non-destructive testing of metallic materials 73
9.2.1 General requirements 73
9.2.2 NDT categories versus initial crack size 74
9.2.2.1 Standard fracture control NDT 74
9.2.2.2 Special fracture control NDT 79
9.2.2.3 Crack screening proof test 81
9.2.3 Inspection procedure requirements for Standard fracture control NDT . 81
9.2.3.1 Overview 81
9.2.3.2 Requirements 81
9.3 NDT for composites, bonded and sandwich parts 82
9.3.1 Overview 82
9.3.2 Testing requirements 82
9.3.2.1 General requirements 82
9.3.2.2 Close visual testing 82
9.3.2.3 NDT methods other than close visual testing 82

Annex A (normative) NDT plan - DRD 84

A.1 DRD identification 84
A.2 Expected response 84

Annex B (normative) NDT report - DRD 86

B.1 DRD identification 86
B.2 Expected response 86

Annex C (normative) NDT procedure - DRD 91

C.1 DRD identification 91
C.2 Expected response 91

Annex D (normative) Eddy-current testing instruction - DRD 92

D.1 DRD identification 92
D.2 Expected response 92

Annex E (informative) Catalogue of potential discontinuities 93

Annex F (informative) Example for POD evaluation , software and documentation 95

F.1 Theory 95

F.2 POD demonstration 96

Annex G (informative) Complementary material information 99

G.1 Overview 99

G.2 Forgings and rolled products 99

G.3 Castings 101

G.4 Composite products 101

G.5 Ceramics 103

Bibliography 104
