## UAS traffic management (UTM) - Part 7: Data model for spatial data

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Data model .....	2
4.1	Overall data model .....	2
4.2	Ground map package .....	3
4.2.1	Overview .....	3
4.2.2	Attributes of takeoff and landing area .....	3
4.2.3	Attributes of land .....	4
4.3	Obstacle data package .....	5
4.3.1	Overview .....	5
4.3.2	Attributes of static obstacle .....	5
4.3.3	Attributes of temporal obstacle .....	5
4.4	Virtual data package .....	6
4.4.1	Overview .....	6
4.4.2	Attributes of airspace .....	6
4.4.3	Attributes of flight route .....	6
4.4.4	Attributes of CNS coverage .....	7
4.5	Dynamic data package .....	7
4.5.1	Overview .....	7
4.5.2	Object sub-package .....	8
4.5.3	Phenomena sub-package .....	9
Annex A (informative)	Examples of information .....	11
Annex B (informative)	Use cases .....	12
Bibliography .....		26
