|------------------------------------------------------------------------|-----------|
| <b>European foreword .....</b>                                         | <b>12</b> |
| <b>Introduction .....</b>                                              | <b>13</b> |
| <b>1 Scope .....</b>                                                   | <b>14</b> |
| <b>2 Normative references.....</b>                                     | <b>15</b> |
| <b>3 Terms, definitions and abbreviated terms .....</b>                | <b>17</b> |
| 3.1 Terms from other standards .....                                   | 17        |
| 3.2 Terms specific to the present standard.....                        | 17        |
| 3.3 Abbreviated terms .....                                            | 22        |
| 3.4 Nomenclature.....                                                  | 25        |
| <b>4 General.....</b>                                                  | <b>26</b> |
| 4.1 Overview .....                                                     | 26        |
| 4.1.1 Objective and organization .....                                 | 26        |
| 4.1.2 Interfaces with other areas.....                                 | 28        |
| 4.2 Physical properties .....                                          | 29        |
| 4.3 Test and storage .....                                             | 29        |
| 4.3.1 Test environment.....                                            | 29        |
| 4.3.2 Test tolerances and accuracies .....                             | 30        |
| 4.3.3 <<deleted>> .....                                                | 31        |
| 4.4 Critical materials.....                                            | 31        |
| <b>5 Photovoltaic assemblies .....</b>                                 | <b>32</b> |
| 5.1 Overview .....                                                     | 32        |
| 5.1.1 Description.....                                                 | 32        |
| 5.1.2 Purpose and objective .....                                      | 32        |
| 5.2 Conditions and method of test.....                                 | 33        |
| 5.3 Photovoltaic assembly design .....                                 | 34        |
| 5.3.1 Overview .....                                                   | 34        |
| 5.3.2 Parameters related to parts, materials and processes (PMP) ..... | 34        |
| 5.3.3 Parameters related to design.....                                | 35        |

|          |                                                           |           |
|----------|-----------------------------------------------------------|-----------|
| 5.4      | PVA manufacturing .....                                   | 39        |
| 5.4.1    | Process validation.....                                   | 39        |
| 5.4.2    | Defect acceptability.....                                 | 39        |
| 5.4.3    | In-process testing .....                                  | 39        |
| 5.4.4    | Identification and traceability.....                      | 41        |
| 5.4.5    | Recording .....                                           | 41        |
| 5.5      | PVA tests .....                                           | 41        |
| 5.5.1    | Qualification tests .....                                 | 41        |
| 5.5.2    | Acceptance tests for qualification coupons .....          | 50        |
| 5.5.3    | Definition of tests and checks .....                      | 51        |
| 5.6      | Failure definition .....                                  | 62        |
| 5.6.1    | Failure criteria.....                                     | 62        |
| 5.6.2    | Failed qualification coupons.....                         | 63        |
| 5.7      | Data documentation .....                                  | 63        |
| 5.8      | Delivery .....                                            | 63        |
| 5.9      | Packaging, packing, handling and storage .....            | 63        |
| <b>6</b> | <b>Solar cell assemblies .....</b>                        | <b>64</b> |
| 6.1      | General .....                                             | 64        |
| 6.1.1    | Testing.....                                              | 64        |
| 6.1.2    | Conditions and methods of test.....                       | 64        |
| 6.1.3    | Deliverable components .....                              | 64        |
| 6.1.4    | Identification and traceability.....                      | 64        |
| 6.2      | Production control (process identification document)..... | 65        |
| 6.3      | Acceptance tests .....                                    | 65        |
| 6.3.1    | General.....                                              | 65        |
| 6.3.2    | Test methods and conditions .....                         | 65        |
| 6.3.3    | Electrical performance acceptance test (EPA).....         | 66        |
| 6.4      | Qualification tests .....                                 | 66        |
| 6.4.1    | General.....                                              | 66        |
| 6.4.2    | Qualification.....                                        | 68        |
| 6.4.3    | Test methods, conditions and measurements.....            | 69        |
| 6.5      | Failure definition .....                                  | 85        |
| 6.5.1    | Failure criteria.....                                     | 85        |
| 6.5.2    | Failed SCAs.....                                          | 85        |
| 6.6      | Data documentation .....                                  | 85        |
| 6.7      | Delivery .....                                            | 85        |
| 6.8      | Packing, dispatching, handling and storage.....           | 86        |

|          |                                                           |           |
|----------|-----------------------------------------------------------|-----------|
| 6.8.1    | Overview .....                                            | 86        |
| 6.8.2    | ESD Sensitivity .....                                     | 86        |
| <b>7</b> | <b>Bare solar cells.....</b>                              | <b>87</b> |
