## Space systems - Safety and compatibility of materials - Part 2: Determination of flammability of electrical-wire insulation and accessory materials

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 <b>Scope</b> .....		1
2 <b>Conformance</b> .....		1
3 <b>Normative references</b> .....		1
4 <b>Terms and definitions</b> .....		1
5 <b>Test materials</b> .....		2
6 <b>Electrical-wire insulation flammability test in a static environment (Test A)</b> .....		2
7 <b>Alternative wire-insulation flammability test in a gas-flow environment (Test B)</b> .....		7
<b>Annex A (informative) Competency and accreditation of test facilities</b> .....		13
<b>Annex B (informative) Preparation and qualification of chemical ignitors</b> .....		14
<b>Bibliography</b> .....		19
