

DIN EN 15163:2008-09 (E)

Machines and installations for the exploitation and processing of natural stone - Safety - Requirements for diamond wire saws

Contents	Page
Foreword	4
Introduction	5
1 Scope	6
2 Normative references	6
3 Terms and definitions	7
4 List of significant hazards	12
5 Safety requirements and/or protective measures	13
5.1 General	13
5.2 Mechanical hazards	13
5.2.1 Transport	13
5.2.2 Protection against moving parts	14
5.2.3 Stability	17
5.2.4 Rotation of the machine head of transportable machines	17
5.3 Electrical hazards and hazards related to control	17
5.3.1 Electric equipment	17
5.3.2 Conductors, cables and lines	17
5.3.3 Mains supplies and separators	18
5.3.4 Controls	18
5.3.5 Electric drives	18
5.3.6 Failure of electrical power supply	18
5.4 Radiation	19
5.4.1 Safety requirements related to electromagnetic phenomena	19
5.4.2 Laser radiation	19
5.5 Hydraulic and pneumatic components	19
5.6 Protection from dust and dust particles	19
5.7 Ergonomic aspects	19
5.8 Maintenance	19
6 Verification of safety requirements and/or protective measures	19
7 Information for use	20
7.1 General	20
7.2 Signal and warning devices	20
7.3 Instruction handbook	20
7.3.1 General	20
7.3.2 Description of the machine	20
7.3.3 Instructions for transport, handling and storage of the machine and its dismountable parts	20
7.3.4 Instructions for the installation and the use of the machine	20
7.3.5 Maintenance instructions	22
7.3.6 Spare parts list	22
7.4 Marking	22
tool that shall not be accessible during the process (stationary machines)	25

Requirements of EU Directive 98/37/EC	28
Annex B (informative) Example of a solution for guarding the wire wheels and the parts of the Annex ZA (informative) Relationship between this European Standard and the Essential Annex A (normative) Pictograms	24
Requirements of EU Directive 2006/42/EC	29
