

ISO 24497-3:2007-11 (E)

Non-destructive testing - Metal magnetic memory - Part 3: Inspection of welded joints

Contents		Page
Foreword		iv
1 Scope		1
2 Basic principles		1
3 Inspection conditions		2
4 Inspection devices		2
5 Inspection planning		3
6 Inspection procedure		4
7 Processing of results		5
Annex A (normative) Inspection report		7
Annex B (informative) Example of stress concentration zones defined by a device with digital indication of the magnetic field intensity		9
Annex C (informative) An example of stress concentration zones defined by the device having recorder and scanner		11
