

DIN EN ISO 11844-2:2008-08 (E)

Corrosion of metals and alloys - Classification of low corrosivity of indoor atmospheres - Part 2: Determination of corrosion attack in indoor atmospheres (ISO 11844-2:2005)

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Principle	5
4	Methods	5
Annex A (normative) Determination of corrosion rate by mass change measurement		8
Annex B (normative) Determination of corrosion rate by electrolytic cathodic reduction		11
Annex C (informative) Determination of corrosion rate by resistance measurements		13
Bibliography		15
