

ISO 27831-2:2008-10 (E)

Metallic and other inorganic coatings - Cleaning and preparation of metal surfaces - Part 2: Non-ferrous metals and alloys

| Contents | | Page |
|--------------------|--|-------------|
| Foreword | | vii |
| Introduction | | viii |
| 1 | Scope | 1 |
| 2 | Normative references | 2 |
| 3 | Terms and definitions | 3 |
| 4 | Essential information to be supplied by the purchaser to the processor | 3 |
| 5 | Requirements | 4 |
| 6 | Standard cleaning methods | 5 |
| 7 | Non-corrosion-resisting steels, cast irons and pure irons | 5 |
| 8 | Corrosion-resisting and heat-resisting steels | 6 |
| 9 | Pretreatment of metals prior to powder coating | 6 |
| 10 | Cleaning and preparation processes | 6 |
| 11 | Aluminium and aluminium alloys | 6 |
| 11.1 | General | 6 |
| 11.2 | General degreasing and cleaning | 6 |
| 11.3 | Removal of corrosion products | 6 |
| 11.4 | Preparation prior to anodizing | 7 |
| 11.5 | Preparation prior to oxide removal treatment (process O) or filming treatment | 7 |
| 11.6 | Preparation prior to adhesive bonding of unanodized items | 7 |
| 11.7 | Preparation prior to electroplating | 7 |
| 11.8 | Preparation prior to autocatalytic nickel plating | 7 |
| 11.9 | Preparation prior to conversion coating | 7 |
| 11.10 | Preparation prior to metal spraying | 7 |
| 11.11 | Preparation prior to vitreous enamelling | 8 |
| 11.11.1 | Sheet, extrusions and items made from casting alloys | 8 |
| 11.11.2 | Other castings | 8 |
| 11.12 | Preparation prior to supplementary treatments on physically vapour deposited aluminium | 8 |
| 12 | Copper and copper alloys | 8 |
| 12.1 | General degreasing and cleaning | 8 |
| 12.2 | Preparation prior to electroplating | 9 |
| 12.3 | Preparation prior to autocatalytic nickel plating | 9 |
| 12.4 | Preparation prior to hot tinning (TRI process) | 10 |
| 12.5 | Preparation prior to vitreous tinning | 10 |
| 13 | Nickel alloys | 10 |
| 13.1 | General degreasing and cleaning | 10 |
| 13.2 | Preparation prior to electroplating | 10 |
| 13.3 | Preparation prior to autocatalytic deposition | 11 |
| 13.4 | Preparation prior to vitreous enamelling | 11 |
| 14 | Titanium and titanium alloys | 11 |

| | | |
|--------|--|----|
| 14.1 | General degreasing and cleaning | 11 |
| 14.2 | Preparation prior to electroplating | 12 |
| 14.3 | Preparation prior to autocatalytic nickel plating | 12 |
| 15 | Magnesium alloys | 12 |
| 15.1 | General degreasing and cleaning prior to electroplating and conversion coating | 12 |
| 15.2 | Preparation prior to electroplating | 12 |
| 15.3 | Preparation prior to conversion coating | 13 |
| 15.3.1 | General | 13 |
| 15.3.2 | As-cast castings | 13 |
| 15.3.3 | Machined castings | 14 |
| 15.3.4 | Forgings | 14 |
| 15.3.5 | Sheets and extrusions | 14 |
| 16 | Zinc-based alloys | 14 |
| 16.1 | General degreasing and cleaning | 14 |
| 16.2 | Cleaning of corroded items | 14 |
| 16.3 | Preparation of zinc alloy die castings prior to electroplating | 14 |
| 16.4 | Preparation of zinc alloy castings prior to chromate conversion coating or phosphate treatment | 14 |
| 17 | Tin and its alloys | 14 |
| 18 | Tungsten alloys | 15 |
| 18.1 | Preparation prior to electroplating | 15 |
| 18.2 | Preparation prior to adhesive bonding | 15 |
| 19 | Lead and its alloys | 15 |
| 20 | Zinc-, cadmium-, chromium- and gold-coated items | 15 |
| 20.1 | Preparation of zinc-coated items prior to chromate conversion coating | 15 |
| 20.2 | Preparation of cadmium-coated items prior to chromate conversion coating | 15 |
| 20.3 | Preparation of physically vapour deposited cadmium prior to supplementary treatments | 15 |
| 20.4 | Preparation for chromium-coated parts prior to supplementary treatments | 16 |
| 20.5 | Removal of surface contamination from gold coatings | 16 |
| 21 | Pretreatment of metals prior to powder coating | 16 |
| 21.1 | Preparation of aluminium prior to powder coating | 16 |
| 21.2 | Preparation of zinc and hot-dip-galvanized steel prior to powder coating | 16 |
| 21.3 | Preparation of copper and brass prior to powder coating | 16 |
| 22 | Cleaning and preparation processes | 16 |
| 22.1 | Process A -- Organic-solvent degreasing and cleaning | 17 |
| 22.1.1 | General | 17 |
| 22.1.2 | Method A1 -- Hot solvent, not water-rinsable | 17 |
| 22.1.3 | Method A2 -- Cold solvent, not water-rinsable | 17 |
| 22.1.4 | Method A3 -- Hot solvent, water-rinsable | 17 |
| 22.1.5 | Method A4 -- Cold solvent, water-rinsable | 18 |
| 22.1.6 | Method A5 -- Petroleum fuel based mixtures containing emulsifying agents | 18 |
| 22.1.7 | Method A6 -- Ultrasonic cleaning | 18 |
| 22.2 | Process B -- Alkaline degreasing | 18 |
| 22.2.1 | General | 18 |
| 22.2.2 | Method B1 -- General-purpose alkaline degreasing | 18 |
| 22.2.3 | Method B2 -- Mild alkaline degreasing | 18 |
| 22.2.4 | Method B3 -- Cathodic alkaline degreasing | 19 |
| 22.3 | Process C -- Acid emulsion cleaning | 19 |
| 22.4 | Process D -- Abrasive cleaning | 19 |
| 22.4.1 | General | 19 |
| 22.4.2 | Method D1 -- Coarse-abrasive blasting | 19 |
| 22.4.3 | Method D2 -- Fine-abrasive blasting | 19 |
| 22.4.4 | Method D3 -- Scouring | 19 |
| 22.4.5 | Method D4 -- Tumbling | 20 |
| 22.4.6 | Method D5 -- Wire brushing | 20 |
| 22.5 | Process E -- Caustic-alkali descaling | 20 |
| 22.6 | Process F -- Acid pickling without electrolysis | 20 |
| 22.7 | Process G -- Acid dipping | 20 |
| 22.8 | Process H -- Anodic pickling | 20 |
| 22.8.1 | General | 20 |
| 22.8.2 | Method H1 | 20 |

| | | |
|-----------|--|----|
| 22.9 | Process J -- Acid de-rusting | 20 |
| 22.10 | Process K -- Alkaline de-rusting | 21 |
| 22.11 | Process L -- Chemical smoothing and electropolishing of steels | 21 |
| 22.12 | Process M -- Passivation and removal of surface contamination from corrosion-resisting steels and surface preparation prior to electroplating | 21 |
| 22.13 | Process N -- Acid pickling of aluminium alloys | 21 |
| 22.13.1 | General | 21 |
| 22.13.2 | Method N1 | 21 |
| 22.13.3 | Method N2 | 21 |
| 22.13.4 | Method N3 | 21 |
| 22.13.5 | Method N4 | 22 |
| 22.13.6 | Method N5 | 22 |
| 22.13.7 | Method N6 | 22 |
| 22.14 | Process O -- Oxide removal, i.e. "etching", treatment of aluminium and aluminium alloys | 22 |
| 22.14.1 | General | 22 |
| 22.14.2 | Degreasing and cleaning | 22 |
| 22.14.3 | Preparation prior to anodizing and adhesive bonding | 23 |
| 22.15 | Process P -- Aluminium and aluminium alloys -- Removal of corrosion products, etching treatment, chemical polishing, electrobrightening and electropolishing | 24 |
| 22.15.1 | Removal of corrosion products | 24 |
| 22.15.1.1 | Method P1 -- Immersion | 24 |
| 22.15.1.2 | Method P2 -- Swabbing | 24 |
| 22.15.2 | Etching treatment | 24 |
| 22.15.2.1 | Method P3 -- Etching by brushing or spray treatment | 24 |
| 22.15.2.2 | Method P4 -- Etching and de-smutting treatment using sodium hydroxide | 24 |
| 22.15.3 | Method P5 -- Chemical polishing | 25 |
| 22.15.4 | Method P6 -- Electrobrightening | 25 |
| 22.15.5 | Method P7 -- Electropolishing | 26 |
| 22.16 | Process Q -- Cleaning of copper and copper alloys | 26 |
| 22.16.1 | Method Q1 -- Cleaning in dichromate/sulfuric acid solution | 26 |
| 22.16.2 | Method Q2 -- Cleaning in ferric sulfate/sulfuric acid solution | 26 |
| 22.17 | Process R -- Acid descaling, etching, chemical smoothing and electropolishing of copper and copper alloys | 26 |
| 22.17.1 | Method R1 -- Descaling dip | 26 |
| 22.17.2 | Method R2 -- Bright dip | 26 |
| 22.17.3 | Method R3 -- Chemical smoothing | 27 |
| 22.17.4 | Method R4 -- Pickling in nitric acid | 27 |
| 22.17.5 | Method R5 -- Electropolishing | 27 |
| 22.18 | Process S -- Pickling of titanium and titanium alloys | 27 |
| 22.18.1 | General | 27 |
| 22.18.2 | Method S1 | 27 |
| 22.18.3 | Method S2 | 27 |
| 22.19 | Process T -- Pickling, chemical polishing and electropolishing of nickel and its alloys | 28 |
| 22.19.1 | General | 28 |
| 22.19.2 | Method T1 | 28 |
| 22.19.3 | Method T2 | 28 |
| 22.19.4 | Method T3 | 28 |
| 22.19.5 | Method T4 -- Chemical polishing | 28 |
| 22.19.6 | Method T5 -- Electropolishing | 29 |
| 22.20 | Process U -- Preparation of tin alloy for electroplating | 29 |
| 22.21 | Process V -- Removal of surface contamination from gold coatings | 29 |
| 22.22 | Process W -- Preparation of aluminium alloys prior to electroplating | 29 |
| 22.23 | Process X -- Preparation of nickel alloys prior to electroplating | 30 |
| 22.24 | Process Y -- Preparation of titanium alloys prior to electroplating | 31 |
| 22.24.1 | Method Y1 -- General method for titanium alloys | 31 |
| 22.24.2 | Method Y2 -- Method for titanium and selected titanium alloys | 32 |
| 22.24.3 | Method Y3 -- Chemical-etching method | 32 |
| 22.25 | Process Z -- Preparation of zinc and zinc alloys prior to electroplating | 33 |
| 22.25.1 | Method Z1 | 33 |
| 22.25.2 | Method Z2 | 33 |
| | Annex A (informative) Maintenance of organic and vapour degreasing baths | 34 |

| | |
|---|-----------|
| Annex B (informative) The control of acidity in vapour cleaning baths | 35 |
| Annex C (normative) Method for the determination of oxidizable material in sulfuric acid | 36 |
| Annex D (informative) Method for determining free acidity | 37 |
| Annex E (normative) Selection of method of cleaning according to the tensile strength of the steel in zinc-coated steel items prior to chromate conversion coating | 38 |
| Annex F (normative) Method M4 | 40 |
| Bibliography | 41 |
