## Rubber - Determination of the aromaticity of oil in vulcanized rubber compounds

---

| <b>Contents</b>   |                              | <b>Page</b> |
|---|------------------------------|-------------|
| Foreword .....  |                              | iv          |
| 1   | Scope .....                  | 1           |
| 2   | Normative references .....   | 1           |
| 3   | Terms and definitions .....  | 1           |
| 4   | Reagents and materials ..... | 1           |
| 5   | Apparatus .....              | 2           |
| 6   | Procedure .....              | 2           |
| 7   | Calculation .....            | 4           |
| 8   | Precision .....              | 5           |
| 9   | Test report .....            | 5           |
| <br>  |                              |             |
| <b>Figures</b>  |                              |             |
| <br>  |                              |             |
| Annex A (informative) 1H NMR spectra of extracts from compounds containing aromatic oil ( A.1 and A.3) and MES oil ( A.2 and A.4) .....           |                              | 6           |
| Annex B (informative) 1H NMR analysis results for typical rubber compounds (those used for the interlaboratory trial described in Clause 8) ..... |                              | 8           |
| Annex C (informative) Preparation of clean samples of rubber compounds from tyres .....   |                              | 9           |
