|-----------------------|--|-------------|
| Foreword .....        |  | 3           |
| 1                     | Scope .....  | 4           |
| 2                     | Normative references .....                             | 4           |
| 3                     | Terms and definitions .....                            | 4           |
| 4                     | Principle .....  | 4           |
| 5                     | Reagents .....   | 4           |
| 6                     | Apparatus and materials .....                          | 5           |
| 7                     | Methods .....  | 6           |
| 7.1                   | Outline of sample preparation system .....             | 6           |
| 7.2                   | Sample preparation .....                               | 6           |
| 8                     | HPLC conditions (recommendations) .....                | 7           |
| 9                     | Calibration .....                                      | 7           |
| 10                    | Calculation .....                                      | 7           |
| 11                    | Checking reagents for absence of formaldehyde .....    | 8           |
| 12                    | Control of the procedure .....                         | 8           |
| 13                    | Determination of formaldehyde in stock solutions ..... | 8           |
| 14                    | Test report .....                                      | 8           |
| Annex A (informative) | Reliability of the method .....                        | 9           |
