# DIN EN ISO 14713-2:2010-05 (E)

## Zinc coatings - Guidelines and recommendations for the protection against corrosion of iron and steel in structures - Part 2: Hot dip galvanizing (ISO 14713-2:2009)

## Contents

Page

Foreword ..... 3

1 Scope ..... 4

2 Normative references ..... 4

3 Terms and definitions ..... 5

4 Design for hot dip galvanizing ..... 5
4.1 General ..... 5
4.2 Surface preparation ..... 5
4.3 Procedures related to design considerations ..... 6
4.4 Design features ..... 6
4.5 Tolerances ..... 6

5 Design for storage and transport ..... 7

6 Effect of article condition on quality of hot dip galvanizing ..... 7
6.1 General ..... 7
6.2 Surface condition ..... 9
6.3 Influence of steel surface roughness on the hot dip galvanized coating thickness ..... 9
6.4 Influence of thermal cutting processes ..... 9
6.5 Effect of internal stresses in the basis steel ..... 9
6.6 Large objects or thick steels ..... 10
6.7 Hot dip galvanizing practice ..... 10

7 Effect of hot dip galvanizing process on the article ..... 11
7.1 Dimensional tolerances on mating thread ..... 11
7.2 Effect of process heat ..... 11

8 After-treatments ..... 11

Annex A (informative) Preferred designs of articles for hot dip galvanizing ..... 12

Bibliography ..... 21
