DIN EN 14961-1:2010-04 (E nglisch)

Solid biofuels - Fuel specifications and classes - Part 1: General requirements

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Symbols and abbreviations 6

5 Principle 7

6 Classification of origin and sources of solid biofuels 8
6.1 General 8
6.2 Woody biomass 12
6.2.1 Forest, plantation and other virgin wood 12
6.2.2 By-products and residues from wood processing industry 12
6.2.4 Blends and mixtures 13
6.3 Herbaceous biomass 13
6.3.1 Agriculture and horticulture herbaceous biomass 13
6.3.2 By-products and residues from herbaceous processing industry 13
6.3.3 Blends and mixtures 13
6.4 Fruit biomass 13
6.4.1 Orchard and horticulture fruit 13
6.4.2 By-products and residues from fruit processing industry 13
6.4.3 Blends and mixtures 13
6.5 Biomass blends and mixtures 13

7 Specification of solid biofuels based on traded forms and properties 14
7.1 Traded forms of solid biofuels 14
7.2 Specification of properties of solid biofuels 14

Annex A (informative) Illustrations of typical forms of wood fuels 34

Annex B (informative) Typical values of solid biomass fuels 36

Annex C (informative) Examples of possible causes for deviant levels for different properties and of consequences of handling and treatments for the properties of biomass 47

Annex D (informative) Calculation of the net calorific value at different bases and energy density as received 49
