DIN EN 13554:2011-04 (E)

Non-destructive testing - Acoustic emission testing - General principles

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Personnel qualification 4

5 Principle of the acoustic emission method 4
5.1 The acoustic emission (AE) phenomenon 4
5.2 Advantages and features of AE 5
5.3 Limitations of AE 6

6 Applications of the acoustic emission method 6

7 Instrumentation 7
7.1 General 7
7.2 AE sensors 7
7.3 Signal conditioning and processing 8
7.4 Settings 9
7.5 External parameters inputs 9

8 Testing 9
8.1 General 9
8.2 Preliminary information 9
8.3 Preliminary preparation 10
8.4 On-site preparations 10
8.5 Data acquisition 10
8.6 Presentation of results 11
8.7 Subsequent operations 11

9 Data analysis 12
9.1 General 12
9.2 On-line analysis 12
9.3 Post test analysis 12

10 Test instruction 13

11 Test documentation and test report 14
