

DIN EN 15413:2011-11 (E)

Solid recovered fuels - Methods for the preparation of the test sample from the laboratory sample

Contents		Page
Foreword		3
Introduction		4
1 Scope		5
2 Normative references		5
3 Terms and definitions		5
4 Safety remarks		6
5 Principle		6
6 Apparatus		6
7 Interferences and sources of error		6
8 Procedure		7
8.1 Sample conservation and pre-treatment		7
8.2 Key concepts		7
8.3 Sequence of treatment techniques		8
9 Quality control		10
10 Performance characteristics		10
11 Test report		10
Annex A (normative) Guideline for choosing sample treatment techniques		11
A.1 General		11
A.2 Homogenisation		11
A.3 Fraction separation		12
A.4 Drying		13
A.5 Particle size reduction		15
A.6 Sub-sampling		17
Annex B (informative) Relationship between minimum amount of sample and particle size - Equation for the estimation of the minimum amount of sample		19
Annex C (informative) Sample treatment equipment		22
Annex D (normative) Guidelines - Characteristics of the laboratory sample for chemical analysis of SRF		23
Annex E (informative) Results of ruggedness testing		25
E.1 Abstract		25
E.2 Preparation of samples and application of statistical formula		25
E.3 Evaluation of influence of particle size reduction systems		28

E.4	Conclusions	34
	Bibliography	36
