|-----------------------|---|-------------|
| Foreword .....        |   | 3           |
| 1                     | Scope .....   | 4           |
| 2                     | Normative references .....                          | 4           |
| 3                     | Principle .....                                     | 4           |
| 4                     | Apparatus .....                                     | 4           |
| 4.1                   | Mechanical pin-wheel area-measurement machine ..... | 4           |
| 4.2                   | Circular calibration template .....                 | 4           |
| 4.3                   | Calibration procedure .....                         | 5           |
| 5                     | Sampling and sample preparation .....               | 5           |
| 5.1                   | Conditioning of the leather .....                   | 5           |
| 5.2                   | Start of measurement .....                          | 5           |
| 5.3                   | Method of measurement .....                         | 5           |
| 5.4                   | Direction of feed .....                             | 6           |
| 5.5                   | Number of measurements .....                        | 6           |
| 6                     | Expression of results .....                         | 6           |
| 7                     | Test report .....                                   | 6           |
| Annex A (informative) | Sources of test apparatus .....                     | 7           |
