Corrosion of metals and alloys - Corrosion tests in artificial atmospheres - Guidelines for selection of accelerated corrosion test for product qualification

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Categories and characteristics of accelerated corrosion tests	2
4	Recommended fields of application for different kinds of tests and their suitability	4
5	Corrosivity of tests and relative corrosion rates of standard metals	6
6	Requirements for test equipment and reproducibility of test results	8
7	Recommended procedures for product qualification	8
Annex A (informative) Characteristics of standardized accelerated atmospheric corrosion tests		10
Annex B (informative) Initial risk analysis of potential failure modes for products or functional units		16
Bibliography		18
