

ISO/TS 80004-6:2013-11 (E)

Nanotechnologies - Vocabulary - Part 6: Nano-object characterization

Contents		Page
Foreword		iv
Introduction		vi
1	Scope	1
2	General terms	1
3	Terms related to size and shape measurement	3
3.1	Terms related to measurands for size and shape	3
3.2	Terms related to scattering techniques	4
3.3	Terms related to aerosol characterization	5
3.4	Terms related to separation techniques	6
3.5	Terms related to microscopy	7
3.6	Terms related to surface area measurement	10
4	Terms related to chemical analysis	11
5	Terms related to measurement of other properties	15
5.1	Terms related to mass measurement	15
5.2	Terms related to crystallinity measurement	16
5.3	Terms related to charge measurement in suspensions	16
Annex A (informative)	Index	18
