

DIN 51130:2014-02 (E)

Testing of floor coverings - Determination of the anti-slip property - Workrooms and fields of activities with slip danger - Walking method - Ramp test

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Principle	5
4.1	Slip resistance	5
4.2	Displacement space	5
5	Testing of slip resistance	5
5.1	Apparatus and test equipment	5
5.1.1	Testing footwear	5
5.1.2	Test apparatus with safety equipment	5
5.1.3	Lubricant	6
5.1.4	Flooring test piece	6
5.2	Calibration (selection and training of the testers)	7
5.3	Procedure	8
5.4	Evaluation	8
5.5	Classification	9
6	Measurement of the displacement space	9
6.1	General	9
6.2	Test apparatus	9
6.3	Test specimen	9
6.4	Determination of paste density	9
6.5	Procedure	10
6.6	Evaluation and classification	10
7	Test report	10
Annex A (informative)	Testing process	11
A.1	Calibration	11
A.2	Procedure	11
A.3	Evaluation	11
A.4	Classification	11
Annex B (informative)	Outsoles of the testing footwear	12
