

DIN 51130:2014-02 (E)

Testing of floor coverings - Determination of the anti-slip property - Workrooms and fields of activities with slip danger - Walking method - Ramp test

Contents		Page
Foreword		3
1 Scope		4
2 Normative references		4
3 Terms and definitions		4
4 Principle		5
4.1 Slip resistance		5
4.2 Displacement space		5
5 Testing of slip resistance		5
5.1 Apparatus and test equipment		5
5.1.1 Testing footwear		5
5.1.2 Test apparatus with safety equipment		5
5.1.3 Lubricant		6
5.1.4 Flooring test piece		6
5.2 Calibration (selection and training of the testers)		7
5.3 Procedure		8
5.4 Evaluation		8
5.5 Classification		9
6 Measurement of the displacement space		9
6.1 General		9
6.2 Test apparatus		9
6.3 Test specimen		9
6.4 Determination of paste density		9
6.5 Procedure		10
6.6 Evaluation and classification		10
7 Test report		10
Annex A (informative) Testing process		11
A.1 Calibration		11
A.2 Procedure		11
A.3 Evaluation		11
A.4 Classification		11
Annex B (informative) Outsoles of the testing footwear		12
