

DIN EN ISO 10275:2014-08 (E)

Metallic materials - Sheet and strip - Determination of tensile strain hardening exponent (ISO 10275:2007)

Contents		Page
Foreword		3
Introduction		4
1 Scope		5
2 Normative references		5
3 Symbols and designations		5
4 Principle		7
5 Test equipment		7
6 Test pieces		7
7 Procedure		7
8 Test report		12
Annex A (informative) International comparison of symbols used in the determination of the tensile strain hardening exponent		13
Bibliography		14
