| European foreword .....                                    |  | 3           |
| 1  | Scope .....  | 4           |
| 2  | Normative references .....   | 4           |
| 3  | Principle .....  | 4           |
| 4  | Apparatus .....  | 4           |
| 5  | Reagents .....   | 5           |
| 6  | Test specimen sampling .....   | 5           |
| 6.1  | Natural and man-made textiles .....  | 5           |
| 6.2  | Garment components with painted and other similar surface coatings .....                                   | 5           |
| 6.3  | Metallic products .....  | 5           |
| 6.4  | Non-metal products .....   | 6           |
| 6.4.1  | General .....  | 6           |
| 6.4.2  | Ceramics, glass and crystal and other siliceous materials .....  | 6           |
| 6.4.3  | Plastics, polymers ( includes prints and coatings other than 6.2) and other non- siliceous materials ..... | 6           |
| 7  | Procedure .....  | 6           |
| 7.1  | Digestion of natural and man-made textiles, and coated fabrics .....                                       | 6           |
| 7.2  | Digestion of paint and other similar surface coatings .....  | 6           |
| 7.3  | Digestion of metallic products .....   | 7           |
| 7.4  | Digestion of non-metal products .....  | 7           |
| 7.4.1  | Ceramics, glass and crystal and other siliceous materials .....  | 7           |
| 7.4.2  | Plastics, polymers and other non-siliceous materials .....   | 8           |
| 7.5  | Determination of metals .....  | 8           |
| 7.6  | Reporting of results .....   | 8           |
| 8  | Reliability of the method .....  | 9           |
| 9  | Test report .....  | 9           |
| Annex A (informative) Laboratory microwave procedure ..... |  | 10          |
| A.1  | Cleaning of polytetrafluoroethylene glassware and vessels .....  | 10          |
| A.2  | Sample preparation (digestion) .....   | 10          |
| Annex B (informative) Procedure characteristics .....      |  | 12          |
| B.1  | Trueness complying with ISO 5725-4 .....   | 12          |
| B.2  | System precision .....   | 13          |
| B.3  | Limit of detection and limit of quantification .....   | 13          |
| Bibliography .....   |  | 14          |
