ISO 18069:2015-06 (E)

Corrosion of metals and alloys - Method for determination of the uniform corrosion rate of stainless s teels and nickel based alloys in liquids

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Principle 1

5 Equipment 2

6 Test solutions 2

7 Specimens 3

8 Procedure 3

9 Evaluation 6

10 Test report 7

Annex A (informative) Example of how to calculate the corrosion rate 8

Bibliography 9
