## Corrosion of metals and alloys - Method for determination of the uniform corrosion rate of stainless steels and nickel based alloys in liquids

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 <b>Scope</b> .....		1
2 <b>Normative references</b> .....		1
3 <b>Terms and definitions</b> .....		1
4 <b>Principle</b> .....		1
5 <b>Equipment</b> .....		2
6 <b>Test solutions</b> .....		2
7 <b>Specimens</b> .....		3
8 <b>Procedure</b> .....		3
9 <b>Evaluation</b> .....		6
10 <b>Test report</b> .....		7
<b>Annex A (informative) Example of how to calculate the corrosion rate</b> .....		8
<b>Bibliography</b> .....		9
