

ISO 17918:2015-07 (E)

Corrosion of metals and alloys - Evaluation of selective corrosion of Cu alloys and grey cast iron for power plant components by visual inspection and hardness measurement

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Terms and definitions	1
3 Principle	2
4 Procedures	2
4.1 Selection of components sensitive to selective corrosion and components for the test	2
4.1.1 Components sensitive to selective corrosion of alloys	2
4.1.2 Selection of components subjected to the test for selective corrosion	3
4.2 Visual inspection and hardness test for selective corrosion on alloys	3
4.3 Procedure of visual inspection for selective corrosion of alloys	3
4.4 Procedure of hardness test for selective corrosion on alloys	4
4.4.2 Apparatus	4
4.4.17 Precision and bias	5
5 Responsibility	5
6 Assessment criteria and corrective actions	6
6.1 Assessment criteria	6
6.2 Corrective actions for unsatisfactory results	7
Annex A (informative) Data sheet of visual inspection for selective corrosion of alloys	8
Annex B (informative) Description sheet for damaged area from selective corrosion of alloys	9
Annex C (informative) Evaluation sheet of hardness test results for selective corrosion of alloys	10
Annex D (informative) Data sheet of hardness test for selective corrosion of alloys (example)	11
Annex E (informative) Photo samples of case histories for selective corrosion	12
Bibliography	21
