

DIN ISO 13067:2015-12 (E)

Microbeam analysis - Electron backscatter diffraction - Measurement of average grain size (ISO 13067:2011)

Contents	Page
National foreword	3
National Annex NA (informative) Bibliography	4
Introduction	5
1 Scope	6
2 Normative references	6
3 Terms and definitions.....	6
3.1 Terminology associated with EBSD measurement of grain size.....	6
3.2 Terminology associated with grains and grain boundaries determined via EBSD.....	8
3.3 Terminology associated within grain size measurement.....	9
3.4 Terminology associated with data correction and uncertainty of EBSD maps.....	10
4 Acquiring a map by EBSD for grain size measurement	10
4.1 Hardware requirements	10
4.2 Software requirements.....	11
5 Acquiring the map for grain sizing by EBSD	11
5.1 Specimen preparation.....	11
5.2 Defining specimen axes	11
5.3 Stage positioning and calibration.....	11
5.4 Linear calibration.....	11
5.5 Preliminary examination.....	12
5.6 Choice of step size.....	12
5.7 Determination of the level of angular accuracy needed ^{[7][8]}	12
5.8 Choice of areas to be mapped and map size.....	14
5.9 Considerations when examining plastically deformed materials	14
6 Analytical procedure	15
6.1 Definition of boundaries	15
6.2 Post-acquisition treatment of raw data	16
6.3 Data-cleaning steps	16
6.4 Measurement of grain size.....	19
6.5 Representation of data.....	19
7 Measurement uncertainty	20
8 Reporting of analysis results.....	20
Annex A (informative) Grain size measurement.....	21
Bibliography	23
