Nanotechnologies - Vocabulary - Part 12: Quantum phenomena in nanotechnology

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Terms describing (or related to) general quantum concepts		1
3 Terms related to basic quantum effects		3
4 Terms describing size-dependent quantum effects		4
5 Terms related to structural organization		5
6 Terms associated with quantum effects		6
Annex A (informative) Some current terms in classical and quantum physics		8
Annex B (informative) Mapping between terms and some applications and products in nanotechnologies		9
Annex C (informative) Index		11
Bibliography		12
