## Surface chemical analysis - Medium-resolution Auger electron spectrometers - Calibration of energy scales for elemental analysis

---

| <b>Contents</b>    |   | <b>Page</b> |
|--------------------|---|-------------|
| Foreword .....     |   | iv          |
| Introduction ..... |   | v           |
| 1                  | Scope .....   | 1           |
| 2                  | Normative references .....                                      | 1           |
| 3                  | Terms and definitions .....                                     | 1           |
| 4                  | Symbols and abbreviated terms .....                             | 1           |
| 5                  | Outline of method .....   | 2           |
| 6                  | Energy scale calibration procedures .....                       | 3           |
| 6.1                | Obtaining reference samples .....                               | 3           |
| 6.2                | Mounting samples .....  | 3           |
| 6.3                | Cleaning samples .....  | 3           |
| 6.4                | Choosing spectrometer settings for energy calibration .....     | 5           |
| 6.5                | Operating the instrument .....                                  | 5           |
| 6.6                | Measurement of reference peaks .....                            | 6           |
| 6.7                | Determining measured kinetic energies of reference peaks .....  | 7           |
| 6.8                | Determining correction of instrument kinetic energy scale ..... | 8           |
| 6.9                | Next calibration .....  | 9           |
| Bibliography ..... |   | 11          |
