ISO 91:2017-05 (E)

Petroleum and related products - Temperature and pressure volume correction factors (petroleum measurement tables) and standard ref erence conditions

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Termsanddefinitions 2

4 Sources and usage guidelines for volume correction factors 2
4.1 Source of volume correction factors 2
4.2 Usage guidelines 3

Annex A (informative) Changes to previous standards 5

Annex B (normative) Standard reference conditions 7

Annex C (informative) Titles of petroleum measurement tables given in the API-ASTM-IP- GPA standards for volume correction factors 8

Annex D (informative) Other volume corrections factors standards 14
