

ISO 91:2017-05 (E)

Petroleum and related products - Temperature and pressure volume correction factors (petroleum measurement tables) and standard reference conditions

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	2
3	Terms and definitions	2
4	Sources and usage guidelines for volume correction factors	2
4.1	Source of volume correction factors	2
4.2	Usage guidelines	3
Annex A (informative) Changes to previous standards		5
Annex B (normative) Standard reference conditions		7
Annex C (informative) Titles of petroleum measurement tables given in the API-ASTM-IP- GPA standards for volume correction factors		8
Annex D (informative) Other volume corrections factors standards		14
Bibliography		15
