## Vitreous and porcelain enamels - Preparation of samples and determination of thermal expansion coefficient

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 <b>Scope</b> .....		1
2 <b>Normative references</b> .....		1
3 <b>Terms and definitions</b> .....		1
4 <b>Apparatus</b> .....		1
5 <b>Requirements for the test specimen</b> .....		1
6 <b>Preparation of the test specimens</b> .....		2
6.1 <b>General</b> .....		2
6.2 <b>Production by casting</b> .....		2
6.3 <b>Production by drawing out of the melt</b> .....		2
6.4 <b>Production by sintering</b> .....		3
7 <b>Determination of the thermal expansion coefficient</b> .....		3
8 <b>Calculation and indication of the results</b> .....		4
9 <b>Test report</b> .....		4
<b>Annex A (informative) Metallic casting mould</b> .....		5
<b>Annex B (informative) Drawing from the melt</b> .....		6
