DIN EN 17119:2018-10 (E)

Non-destructive testing - Thermographic testing - Active thermography

Contents

Page

European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Techniques of data acquisition 6
4.1 General 6
4.2 Types of temporal excitation 7
4.2.1 Pulse thermography 7
4.2.2 Step thermography 7
4.2.3 Lock-in thermography 7
4.3 Types of spatial excitation 7
4.3.1 Local excitation 7
4.3.2 Two-dimensional excitation 7
4.3.3 Excitation of the whole volume 7
4.4 Typical configurations of active thermography 8
4.4.1 Reflection and transmission configurations 8
4.4.2 Static and dynamic configuration 8

5 Techniques of data processing and analysis 9
5.1 General 9
5.2 Data processing in time domain 9
5.3 Data processing in frequency domain 9
5.4 Data analysis 10

6 Qualification of personnel 11

7 Specifications to the test system 11

8 Performance of testing 12

9 Test report 12

Annex A (informative) Excitation techniques of thermography 13
