ISO 21714:2018 (E)

Fine ceramics (advanced ceramics, advanced technical ceramics) — Test method for determining density of ceramic coatings

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Apparatus

5.1 Density testing apparatus
5.2 Dimension measuring device

6 Test pieces

6.1 Type of test piece
6.2 Test piece preparation
6.2.1 Type A test piece preparation
6.2.2 Type B test piece preparation
6.3 Test piece storage
6.4 Number of test pieces
6.5 Temperature and relative humidity

7 Test procedure

7.1 Type A test piece
7.1.1 Determination of mass and density of coated test piece
7.1.2 Determination of mass and density of substrate
7.2 Type B test piece
7.2.1 Determination of mass and density of substrate
7.2.2 Making coating
7.2.3 Determination of mass and density of the coated sample

8 Calculation of results

8.1 Calculation of the density of coating
8.2 Mean values of coating, substrate and coated test piece density

9 Analysis of precision and uncertainty

10 Test report

Page count: 6
