ISO 16793:2018 (E)

Nuclear fuel technology — Guidelines for ceramographic preparation of UO2 sintered pellets for microstructure examination

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Procedures

- 5.1 General
- 5.2 Sample preparation without mounting
- 5.3 Sample preparation with mounting, not needing subsequent dismounting
- 5.4 Sample preparation with mounting, needing subsequent dismounting

6 Apparatus

7 Reagents and consumables

8 Methods

- 8.1 Sectioning
- 8.2 Mounting
- 8.3 Grinding
- 8.4 Polishing
- 8.5 Dismounting

9 Etching

- 9.1 Introduction
- 9.2 Chemical etching
- 9.3 Thermal etching
