

ISO 16793:2018 (E)

Nuclear fuel technology — Guidelines for ceramographic preparation of UO₂ sintered pellets for microstructure examination

Contents

| | |
|-----|--|
| | Foreword |
| 1 | Scope |
| 2 | Normative references |
| 3 | Terms and definitions |
| 4 | Principle |
| 5 | Procedures |
| 5.1 | General |
| 5.2 | Sample preparation without mounting |
| 5.3 | Sample preparation with mounting, not needing subsequent dismounting |
| 5.4 | Sample preparation with mounting, needing subsequent dismounting |
| 6 | Apparatus |
| 7 | Reagents and consumables |
| 8 | Methods |
| 8.1 | Sectioning |
| 8.2 | Mounting |
| 8.3 | Grinding |
| 8.4 | Polishing |
| 8.5 | Dismounting |
| 9 | Etching |
| 9.1 | Introduction |
| 9.2 | Chemical etching |
| 9.3 | Thermal etching |
